1 7 MG-1981

MEMORANDUM FOR: Chief, Operations/PTAS	25X1
FROM:  Security Representative Building Planning Staff	25X1
SUBJECT: Security Upgrade Headquarters Compound Five year Planning, New Building Program	
ψ, <b>τω</b> ,	
1. With the establishment of the Building Planning Staff on 5 May 1981, and the possibility of consolidating most of our resources on the Headquarters compound, a complete reassessment of existing physical security systems and procedures is being conducted. (U)	
2. Individuals in the PTAS directorate have begun a systematic review of existing Headquarters physical security practices, procedures and equipment, including, but not limited	25X1
3. "State of the art" equipment and systems are being reviewed for their practicality and cost vs utility. Present practices and equipment are being re-evaluated as to cost vs effectiveness and reliability. (U)	
4. A vulnerability study/target assessment is being conducted by OTS to provide an outside evaluation of our current system, as well as an evaluation of security proposals made to the building planning staff. This study will be completed prior to November 1981. (U)
